Niche Target Audience
Working Single Moms

I started RichSingleMomma.com in 2008 as a self-motivator for me and a tool of encouragement, education, and empowerment for other single moms. I highlight the positive ways moms can make extra money to make the money stretch to the end of the month. Since that time the site has grown to a comfortably good size. In addition to writing about personal finance, I also write about parenting, personal development, and travel.
